TB8000 **NEWS**

A ROOM WITH DEPTH. A STAGE FOR PRECISION.

THE NEW EXPAND MODULE 700 — FOR MORE WORKSPACE.

EXPAND MODULE 700

**700 MM OF DEPTH THAT
MAKE THE DIFFERENCE.
A STATEMENT OF DESIGN,
FUNCTIONALITY, AND PASSION
FOR DETAIL.**

WITH THE TB8000 TOOLBOARD FROM SW STAHL, A NEW ERA OF WORKSHOP DESIGN HAS BEGUN. WITH THE NEW TB8000 EXPAND MODULE 700, OUR VISION OF THE PERFECT WORKSHOP TAKES ANOTHER STEP FORWARD.

THE NEW EXPAND MODULE 700 NOW OFFERS A WORKING DEPTH OF 700 MM — FOR MORE SURFACE AREA, GREATER ERGONOMICS, AND EVEN MORE FREEDOM IN PLANNING. EVERY EXISTING AND NEW TB8000 CAN NOW BE CONSISTENTLY EXPANDED TO A 700 MM WORKING DEPTH.

THE EXPAND MODULE 700 ALSO MAKES IT POSSIBLE TO CREATE A FUNCTIONAL ISLAND SOLUTION — EXPANDABLE AND FLEXIBLE, JUST THE WAY YOU WANT IT.

TB8000 NEWS

TOOL RACK

+ TOOLS — RIGHT WHERE YOU NEED THEM.

The Tool Rack is the perfect addition to your TB8000. The sturdy tool holder ensures organization and quick access to frequently used tools and accessories. Thanks to the 38 mm perforated panel mount, the Tool Rack can be easily attached to the rear perforated wall of the TB8000 — or alternatively mounted on workshop trolleys from the TT series.

- 01 Tool holder for 38 mm perforated panels
- 02 Compatible with the TB8000 workshop kitchen and TT series workshop trolleys
- 03 Sturdy steel construction with a powder-coated surface
- 04 Ideal for storing cable ties and hand tools

ENERGY BOARD

+ POWER AND COMFORT IN ONE MODULE.

With the new Energy Board, SW STAHL expands the TB8000 workshop kitchen with an intelligent energy solution for the modern workspace. Whether mounted directly on the workbench or as part of a freestanding island solution — the Energy Board ensures optimal power and compressed air supply everywhere. The add-on module impresses with its thoughtful design, maximum functionality, and limitless flexibility. The Energy Board delivers energy exactly where it's needed.

- 01 Integrated power and compressed air connection for versatile applications
- 02 Built-in socket with aluminum sliding cover — robust, elegant, and protected
- 03 3 × 230 V sockets, 1 × USB-A, and 1 × USB-C for all common devices
- 04 4 × compressed air connections for 6.3 mm (1/4") — perfect for professional use

26341L 130.00 EUR*

SW STAHL V-RIBBED BELT SPANNER TOOL, VAG

for VAG vehicles WITHOUT tensioning roller. Here, the belt is tensioned via the spring-loaded generator. With the aid of this key, the generator can be turned accordingly to slacken the belt, e.g. during replacement work. The 12.5 mm (1/2") drive is attached in a star shape and thus allows the tool to be inserted in different ways depending on the space available. The pins are knurled, reducing the risk of the key slipping out of the generator.

Used equivalent to OE number VAG 3297 and Seat U-40050.

10582L 23.50 EUR*

MEASURING CABLE SET, 92-PIECE

The measuring cable set is designed to extend conventional test and measurement devices (e.g., multimeters or oscilloscopes) and enable their use as powerful tools for electrical fault diagnosis in modern motor vehicles.

It supports the analysis and testing of sensors, actuators, and complex electronic circuits increasingly integrated into control units and vehicle subsystems. The kit's included plug adapters, test leads, alligator clips, and additional components allow low-resistance, contact-safe signal acquisition directly at the original connectors of the vehicle wiring—without damaging the insulation or altering the contacts. Typical application areas include, among others:

- Signal tracing in engine management systems
- Voltage and current measurements in lighting and comfort systems
- Diagnosis of control and regulation circuits such as central locking, power windows, etc.

A STORY OF SUCCESS

THAT'S WHAT WE STAND FOR GERMAN QUALITY STANDARDS

Even today, almost all products are manufactured in Germany. And for the few components not produced in Germany, proven German quality standards are still required and upheld.

SAUER today...

In 2015, the hand and specialty tool expert SW Stahl GmbH acquired the SAUER brand rights. Since then, an experienced team of technicians, automotive experts, and a skilled sales and marketing department has been developing a concept to successfully reestablish SAUER in the tool market. Many creative ideas have been implemented, improved tool versions developed, and new, problem-solving products created.

The result is a comprehensive range of intelligent specialty tools that provide the optimal solution for every possible application. With a focus on quality and functionality, the original idea behind "old" SAUER has been revived and further developed. SAUER products are modular in design, work across brands, and are continuously adapted to the latest technical developments in the automotive market — helping workshops reduce their investment costs.

The SAUER team is the ideal partner when it comes to solving specific repair challenges. The experienced technical staff understand the everyday problems in workshops and continuously work on developing and optimizing intelligent specialty tools.
